

JULIE KNOWLES

A **Denver-based UX/UI designer** passionate about creating intuitive experiences founded on research and strategy.

PROJECTS

Bendable

An iOS app prototype made for users to choose stretches based on areas of the body, with short and easy stretches. Researched, tested and designed using Google Forms, UsabilityHub, InVision, Adobe Illustrator and Figma.

Personal Portfolio

Created a personal brand, logo and portfolio to feature my projects. Coded, tested and designed using Github, HTML, CSS, UsabilityHub, and Figma.

RELEVANT EXPERIENCE

UX/UI Design Mentorship

BLOC

Sept. '18 - June '19

- Developed UX/UI design skills under the guidance of accomplished UX professionals
- Built user-center clickable prototypes of websites and apps using Figma, Google Forms, UsabilityHub, and InVision.
- Applied research methods to isolate user needs to create intuitive experiences

Advocacy Administrative Assitant

AMERICAN HEART ASSOCIATION - Denver, CO

April '13 - Sept. '18

- Created fact sheets and for print and online to educate volunteers, lawmakers, and donors
- Developed media targeted toward increasing engagement and inspiring action: Facebook ads, blog posts, action alerts, and newsletters

EDUCATION

Bachelor of Arts, Radio/TV/Film, May 2010

CALIFORNIA STATE UNIVERSITY - Fullerton, CA
